We grant the user the right to employ this software, contingent on the user's acceptance of the following conditions:

1. This software is designed only for the collection and analysis of scientific data. It is not to be used for any non-scientific activities, including business, commercial, or clinical applications. The user agrees to request and receive written approval from A. Nowak or R. Vallacher for the use of this software in non-scientific applications, including educational use.
2. The user agrees to notify A. Nowak and R. Vallacher about any use of this software, both the "mouse register" (data collection) and "mouse analyzer" (data conversion and analysis).
3. The user agrees to acknowledge the source of this software (A. Nowak and R. Vallacher) in any publications, presentations, or grant applications that result from its use.
4. The user agrees to inform A. Nowak and R. Vallacher about any transfer of this software to another party.

By clicking the **OK** button in the about dialog, the user indicates that he or she has read and agreed to these conditions.
